How to merge authors’ profile into one account

If you have many publications indexed in Scopus but your name was indexed in various format, you may request Scopus to merge your indexed names into one. This will make it easy for you or others to find all your publications in a single search.

1. Login to Scopus
2. At the Search page, click ‘Author search’ tab

3. Type in the surname at box 1 and the initial at box 2

Click search
4. The result will display authors with no. of documents, subject field, institution and state/country.

5. Select the correct names you are searching for (you may select more than one).

6. Click “Request to merge authors” at the top menu.
7. A dialog box to merge selected authors will be displayed. Fill up the information and follow the dialog box as it appears.

8. Check the list of documents to make sure that all publications are included. Click “Edit documents” to remove any unrelated publication.
9. Once done, you will be prompted to fill in your contact details for Scopus to verify your identity.

(image for this part cannot be shown as this request must be performed by the author himself not a third party)
